

Please do not let LPFM have priority over FM translator service. I listen to K-Love radio at home, which is broadcast over FM translators. K-Love plays music that is safe for every family member, meaning no swearing, coarse gesturing, etc. Without K-Love, the Camas, WA & Portland, OR community has few choices of wholesome radio programming. I believe that music has a profound influence on our lives and attitudes, and it is important that we keep music on (especially K-Love) the air waves that does not promote pimping, murder, drug use, etc. K-Love is my favorite radio station and I have been a financial supporter for 10 years. Please give priority to FM translators. Thank you for your consideration.
